

# XDR – Detection & Investigation EAP

## Known issues

Known Issues October 11, 2021

Issue	Details	Impact	Notes
DE-9189	Duplicates of Linux Detections	Low	You may see Duplicates of Detections identified from Linux devices
CESG-18076	Linux Detections have blank fields	Low	Linux Detections can have blank fields for data that is not applicable to Detections from Linux devices. We plan to update the UI to remove fields that are not relevant to Linux.
CESG-18173	GeoIP location details may be slightly inaccurate	Low	GeoIP libraries will be updated to improve accuracy.
